TO WHOM IT MAY CONCERN:

Re: Letter of Recommendation

This letter is in reference to a project that was completed by Slater Builders, Inc. at Santa Ana Country Club in the 4<sup>th</sup> Quarter of 2000.

By way of background, the undersigned was the President of Santa Ana Country Club during the period of time that the Club underwent a major remodel of their Men's Card Room, Restroom, Terrace Room, Women's Card Room, and various other areas in and around the Club House. This was a difficult task given the 30+ year age of the building areas involved, coupled with the high expectations for this project by the Membership and Board of Directors of the Club.

Slater Builders, Inc. performance on this project was exemplary. This statement not only applies to the high level of performance and workmanship by their company, but also in the daily coordination of tasks associated with remodeling a building of this age. What was most impressive was the pro-active cooperation received from Slater Builders, Inc. in resolving various inaccuracies contained in the former "as built" drawings upon which our architect relied upon when creating the current remodel working drawings.

I would strongly recommend Slater Builders, Inc. for any type of County Club or Hospitality project given my personal experience in working through this project with them. It was clear to see that they truly excel at this type of work – but more importantly, they repeatedly demonstrated a cooperative team effort in resolving several problems which were outside their scope of work or control.

Should you have any specific questions you may wish to inquire about regard my involvement with Slater Builders, Inc., I would be pleased to be contacted at (949) 851-1414, Extension. Thank you.

Sincerely,

  
Joseph L. Seitz
